

6th turn starts!

Apply now with your Hospital Partnership!

Period application is open from October 21th until December 9th, 2019

Dear Ladies and Sirs,

You are cooperating with your colleagues in a low or middle-income country in a joint Hospital Partnership and you would like to get a financial and advisory support? Then apply for a funding.

A funding by the Initiative Hospital Partnerships – Partners Strengthen Health means for you:

- **Benefit on both sides:** The funding programme aims to empower partnerships and to have a share in improving health services in partner countries. Through peer-to-peer exchange, we intend to assist an exchange of knowledge and experience between qualified employees from Germany and partner countries. We assist Hospital Partnerships between German and international organizational structures in low and middle-income countries.
- **Professional Exchange:** qualified employees exchange their expert's opinion and knowledge on disease patterns, treatment options and technologies. They implement trainings and workshops together. This happens on a practical level and vis-à-vis: on project trips, via trainings and workshops, by telemedicine, via personal exchange of knowledge, experience and innovation – across borders worldwide.

The team of Hospital Partnerships Initiative assists you in making an application and would be happy to answer your questions.
